

Our company has been actively supporting business in Spain for more than 10 years. We are the webmaster for the Coastrider newspaper as well as for many other large companies.

We have developed and created hundreds of websites for Real Estate Agencies during the last 10 years. We are now delighted to be able to offer a new and exciting package which is ideal for your business. Affordable, easy to use and most importantly, optimised to attract maximum traffic straight to your door. Simply choose whether you want to hire our new system on a low cost monthly basis or buy it outright.

Here is a link to some examples of what we can offer - <http://property.cbwebhosting.info>

Our advanced system gives you full control over your website. Want to add a new page or change the text of an existing one? No problem you can do that yourself, instantly. The system is easy to use and you are in full control of your own website.

You need to change the price of a property? A property has just been sold and you want to take it off the website? Just log in to the control panel and with a few clicks it's done. New properties can be added in minutes.

Our system can handle multiple agents (MLS). Each agent has his own login and can manage, add and delete their own properties. The system offers export and import to Kyero and other major property portals.

Here is a short list of features from our property management system
